CALLIER CENTER RESEARCH PARTICIPATION AND RESEARCH REGISTRY**

The mission of the Callier Center for Communication Disorders is “to transform the lives of those with communication disorders by providing outstanding, leading-edge clinical services; conducting meaningful and innovative basic and applied research into new treatments and technologies; and training the next generation of caring clinical providers and scientists.” As a top clinical, research, and training center, individuals entering the Callier Center clinical programs, child development center, Center for Children and Families, and research laboratories may be invited to participate in research studies.

If contacted, individuals can choose to participate or not participate in any research study. Their services will not be affected whether they do or do not participate. Individuals will be provided with a flyer describing the Callier Clinical Research Center (CCRC), the CCRC Participant Registry, and their Rights as Human Research Participants.

You may also choose to be entered into the CCRC Participant Registry. If so, you will be asked to provide basic information for the CCRC Participant Registry, such as contact information, age, and, if applicable, any speech, language, and/or hearing concerns. A Callier Center researcher, who has a study approved by the Institutional Review Board (IRB), may then contact you to invite you to join a research study. You are not obligated to participate in any study. Choosing not to participate does not affect clinical care, child development services, or any other services you or your family engage in at the Callier Center.

If at any time you would like to be removed from the CCRC Participant Registry or to no longer be contacted for possible study participation, please inform any of your service providers at the Callier Center or the registry team by email: [callierresearchregistry@utdallas.edu](mailto:callierresearchregistry@utdallas.edu)

Patient Name: \_\_\_\_\_ DOB: \_\_\_\_\_ CCCD: \_\_\_\_\_

Email: \_\_\_\_\_ Phone Number: \_\_\_\_\_

Electronic health information exchanges (HIEs) allow the Callier Center to securely share important health information electronically with doctors and other healthcare providers. HIEs support fast, reliable, safe, and cost-effective patient care. The Callier Center participates in the following HIEs:

- **Carequality Interoperability Framework** – Carequality is a HIE integrated into eClinicalWorks, an electronic health record (EHR) application used by the Callier Center and many other healthcare providers. Carequality connects health information networks throughout the United States.
- **CommonWell Health Alliance** – CommonWell is a network of healthcare providers and technology companies working together to make it easier for doctors and patients to access health records.

This Exemption Request will terminate your participation in Carequality and CommonWell. Other healthcare providers will still be able to request your health records directly from the Callier Center for coordination of care. Your records may also be disclosed for treatment, payment or operations covered by law without your written permission. Disclosures will follow the Callier Center's approved release of information procedures.

Questions about this Exemption Request may be directed to HIPAA Privacy Officer, The University of Texas at Dallas Callier Center for Communication Disorders, 2895 Facilities Way, Richardson, Texas 75080, Phone: 972-883-3009, Fax: 972-883-3016.
