FOR COMMUNICATION DISORDERS

# Summer Language Camp

## What is Summer Language Camp?

Summer Language Camp is a 6-week language therapy program for children with language and learning disorders. This camp will focus on reading and listening comprehension, vocabulary development and narrative language development. Campers must be fluent readers in order to participate in activities.

Our goal is to provide a fun learning environment to build children's language skills. Activities will center around a chapter book and focus on teaching language strategies to improve academic success.

The camp is staffed by UT Dallas graduate students under the supervision of a licensed speech-language pathologist.

**Who:** Children 8 - 12 years-old that have language or learning disorders

**Space is limited.**

**To reserve your spot:** If your child has had speech-language services within the past six months, a 30-minute intake session must be scheduled. During the intake, current language goals and recent language testing will be reviewed to determine eligibility for camp. The cost of the intake is \$50 and is not insurance eligible. If your child has not had speech-language services within the past six months, a full speech-language evaluation must be scheduled to administer appropriate testing, determine eligibility for camp, and establish language goals. To schedule the intake or the evaluation, please contact the supervising SLP.

**When:** June 9 – July 16, 2025  
9:00 - 11:30 a.m. Mondays and Wednesdays

**Where:** Callier Center Richardson  
2895 Facilities Way, Richardson, Texas 75080

**Cost:** \$700 + \$150 enrollment fee

**Registration Deadline:** May 23, 2025

**Contact:** Katie Lange 972-883-3158  
kathryn.lange@utdallas.edu for non-Callier patients.  
Current Callier patients please contact your provider through the patient portal.

### Callier Center for Communication Disorders

The Callier Center for Communication Disorders helps people communicate throughout their lives — to hear and be heard, to understand and be understood. For more than 60 years, we have provided treatment, training and research to help people of all ages hear, speak and connect with others.
